

Appl. No. 10/727,447

Amdt. dated May 2, 2006

Reply to Notice of Drawing Inconsistency with Specification mailed April 27, 2006

Amendments to the Specification:

Please add the following new paragraphs after paragraph [0018]:

[0018.1] FIG. 3 depicts a communications relay system useful for unmanned air vehicle missions.

[0018.2] FIG. 4 depicts another embodiment, in which a UAV uses a forwardly directed antenna and a rearwardly directed antenna to alternately communicate with another UAV and a ground station.

[0018.3] FIG. 5 is a block diagram depicting a UAV wireless transceiver and onboard memory in communication with an upgrade device in communication with a legacy data logger.
